PRESS RELEASE

SEATORQUE

The **BOSS™**
Bolt On Shaft System

**SEATORQUE SPONSORS THE 7TH ANNUAL NORTH AMERICAN WEST COAST
FLEMING OWNER'S RENDEZVOUS 2011**

Seattle, Washington: Seatorque Control Systems sponsors the 7th annual “*Fleming Fling*” at the Elliot Bay Marina, Seattle, WA hosted by Chuck Hovey Yachts and Fleming Yachts. The rendezvous weekend included a series of seminars where Jana and Peter Stolper, owners of Seatorque, were technical presenters. They outlined the Bolt On Shaft System (BOSS) that was recently introduced on Fleming models as standard equipment on 65s, 55s and on the newly introduced 58s.

“This very intriguing driveshaft system replaces the AquaDrive systems that many Fleming Owners now have.”

The Evening was topped off with the “*Seatorque Soiree*” in honor of Seatorque’s sponsorship for the elegant dinner at the Alani Room of the marina’s Palisades Restaurant. The evening began with a cocktail hour, followed by a sit-down dinner. After dinner jazz pianist, Walt Wagner, provided entertainment and the evening ended with a selection of cruising stories.
