Manufacturing News

The Seatorque factory has expanded! Additional manufacturing space and new Robotic CNC Machining center.

2024 has been a robust year as we welcome the newest addition of our manufacturing team, the HAAS VF2 COBOT. The addition of this equipment will accelerate and streamline production as we usher in a new era of automation to our manufacturing process.

Marketing News

Check out the New Seatorque Website for all the latest! Please visit the online registration portal for owners and dealers to register their Seatorque equipment and stay in the know with new product releases and updates.

Distribution/Service News

We are excited to introduce Southern Stars Marine Yachting Company of New Zealand and Stella Marine Group based in Australia, as authorized Seatorque Partners for the Asia Pacific territory. This area includes New Zealand, Australia and Pacifica. SSM provides OEM customer support and sales in the region www.ssmymachco.com. Stella Marine Group brings certified Seatorque service and exceptional engineering expertise to the Seatorque team www.stellamarine.com.au.

New Build Round up!

Horizon Yachts - Seatorque is standard equipment on the FD80 and FD90 Models. These models address the market's demand for style, space and performance. This is exactly what sets Horizon apart from other builders - a drive for innovation and a willingness to push the proverbial envelope.

Horizon FD90- Seatorque Models M4B-350 & M4B-400

Bering Yachts - Seatorque is standard equipment on all Bering Explorer Superyachts yachts from 65ft - 145ft in length. The long-awaited Bering 120 is finally here. This boat represents the newest approach to Bering's naval design and architecture. Bering Yachts are absolutely magnificent, so much technology, support and willingness to accommodate prospective owners.

Bering 121- Seatorque Model ST4B-400

Outer Reef Yachts - Seatorque is standard equipment on all Outer Reef yachts, including the new Outer Reef 90! This exquisite long range motoryacht is as unique as her owners' dreams and desires, and her seaworthy capabilities and state-of-the-art technologies are second to none. She is truly a masterpiece transforming cruising itineraries into reality.

Outer Reef 90 Seatorque Model M4B-400

Riviera Yachts - Seatorque is standard equipment on all Riviera 64, RIV68/78 and RIV72 models. As one of the world's leading builders of luxury motor yachts, each Riviera is a unique synergy of blue-water heritage, engineering excellence, enduring quality, innovative design, supreme luxury and smart technology that makes boating with Riviera easier and more pleasurable.

Riviera 78 - Seatorque Model M4B-350
